EDUCATION

Brigham Young University

Bachelor of Science: Statistics – Data Science

Apr 2026

Provo, UT

Minor in Business

- Exams Passed: SOA P, FM, FAM, ASTAM
- Proficient in SQL, SAS, VBA, Excel, Python, R, Tableau, Alteryx, C++
- Coursework: Machine Learning, Bayesian Inference, Database Management, Financial Mathematics
- GPA: 3.84 – Dean's List

EXPERIENCE

Centene Corporation

May 2026 – Present

Actuarial Intern – Medicare Part D Forecasting and Reserving

Remote

- Developed SAS-based analytical workflows integrating claims, enrollment, and risk adjustment data for 7M+ Medicare beneficiaries
- Diagnosed data-quality issues through audit checks, uncovering a 900k-member crosswalk mapping error and developing logic to correct member matching across years
- Led multi-year cost and risk score analyses across 2023-2025, identifying key drivers of allowed-cost trends and resolving data inconsistencies affecting actuarial projections

Ductile Iron Pipe Research Association (DIPRA)

Jan 2026 – Apr 2026

Data Analyst Intern

Provo, UT

- Led a team of 5 to design and implement a SQL database for structured storage and analysis of data
- Managed Azure SQL Server, implementing data pipelines, schema design, and query optimization
- Normalized 1,000 multi-source records across 20 fields for SQL database integration

Cambia Health Solutions

Jun 2025 – Sept 2025

Actuarial Intern – Provider Contracting Analytics

Remote

- Identified \$25M in projected financial risk per quarter by implementing an automated model, enabling proactive mitigation strategies (Alteryx, SQL)
- Analyzed behavioral patterns and financial impact for 10K members affected by a major provider transitioning out-of-network
- Quantified and benchmarked high-outlier risk across 400 provider contracts, allowing comparison and adjustment between different contract terms
- Evaluated and tracked 20 reimbursement rate increases for Professional, Hospital, and Ambulatory Surgery Center providers using Excel-based models

BYU Department of Statistics

Jan 2022 – Jul 2022, Sept 2024 – Apr 2026

Teaching Assistant – Probability and Inference, Stats for Engineers, Intro to Stats

Provo, UT

- Held office hours 3 to 5 times per week to clarify course concepts and assist with R code
- Provided weekly feedback on assignments for 70 students
- Led 2-4 exam reviews per semester

VOLUNTEER

Mexico Tijuana Mission

Sept 2022 – Sept 2024

Full-time Representative for The Church of Jesus Christ of Latter-day Saints

Baja California, Mexico

- Directed and trained 5 teams of 20+ volunteers, using productivity reporting and analysis to consistently exceed organizational goals
- Delivered 30+ trainings to strengthen volunteers' problem-solving and collaborative skills
- Achieved fluency in Spanish and built strong cross-cultural communication and relationship-building abilities
